

### **Puppy Petiquette**

Puppy Petiquette is for puppies 8-20 weeks old. It is primarily a socialization class with an introduction to basic manners. It is also a problem solving class where participants can learn about the latest training techniques on house training, puppy biting, crate training, getting past fears, and other behaviors encountered by parents of very young puppies.

This class is open enrollment. You can begin class at any time and must attend six consecutive sessions. If your dog “ages out” of Puppy, they can finish the six week session in the Tweens class.

### **Tweens Puppy Petiquette**

The Tweens class is for puppies between 5 months and 10 months old. Sometimes puppies are not quite ready for a group obedience class but too mature for puppy class. This is the perfect class for them. This class is a combination of socialization through supervised play sessions and a stronger emphasis on basic manners and impulse control than in the young puppy class.

This class is open enrollment. You can begin class at any time and must attend 6 consecutive sessions.
